Racecourse Bookmakers

National Association
of Bookmakers

Rails Bookmakers
Association

10th June 2009.

FOR THE ATTENTION OF ALL ASCOT BOOKMAKERS

SPECIAL NOTICE REGARDING

'RDT'

As bookmakers will be aware RDT do not run their own network at Ascot as they do at every other racecourse.

Alterations have taken place at Ascot which means that all computers to be used at Ascot need a new key input for them to pick up the network.

This modification can be done by any RDT technician and will only take a few minutes.

To prevent frustrations on the opening day of the Royal Meeting bookmakers are advised to get the work done as soon as possible. This can be done at any race meeting or at the RDT offices in Huddersfield.

RDT technicians will be available on Tuesday but with so many bookmakers in attendance they cannot guarantee to attend to everyone in the time available on the day and so your help would be appreciated.
