of Bookmakers

Rails Bookmakers
Association

16th September 2009.

Below are details of **Premiership Security Limited** (as provided by them) for the benefit of any Racecourse Bookmakers who may wish to avail themselves of the services that they provide.

Racecourse Bookmakers Security

Premiership Security is a sister company to Visual Security Services UK Ltd who have over 20 years experience within the industry and are fully ACS approved. As a national company no area of the country is inaccessible to us, we have access to over 1000 security officers nationwide at short notice.

Over recent months there has been a worrying trend amongst the criminal fraternity to target high profile sports personalities, business executives and in particular independent race day bookmakers due to the sums of cash they are transporting when arriving and leaving race day meetings.

Here at Premiership Security Limited we specialise in the security and protection of not only professional football players and sporting celebrities, but also high profile business executives and businesses.

Our Close Protection officers are sensitive to their working environment, thus ensuring the client can carry out everyday duties secure in the knowledge that their assets are under the close protection of our operatives, who will conduct themselves professionally and discreetly according to the cultural, political and religious environments.

We have a 24/7 Control Room so any issues, emergency cover and changes to staff are dealt with as soon as they arise. This gives peace of mind and total control over the security that is provided to you and your assets.

Please feel free to visit our website at www.premiershipsecurity.com or visualecurityltd.co.uk or contact any one of our team on 01562 753 472 for further information on the services we can provide to you and your business.

Premiership Security Limited.
