Working Group Report and Recommendations Regarding “Future Administration of Existing Betting Areas”.

This 17 page document was finalised on 17th August 2007 and should be lodged with the NAB affiliated associations within the next week. Any member of the NAB wishing to obtain a copy should contact their own regional association, but it does not make very exciting reading.

What it does not include is any budget information, since the Working Group has not considered this issue other than in the general terms as outlined in the last message posted on this site. (2nd August).
